

BRASS BODY PADLOCK FOR UTILITY APPLICATIONS

Eliminate the need for
expensive re-keys!

- Made of a solid brass body, stainless steel shackle, and stainless steel dual locking ball bearings
- Lock contains 8 preset codes so that combinations can be changed in the field and lost/stolen keys can be locked out
- No need to replace lock cores
- Unique and registered keys mean employees and contractors cannot readily duplicate keys
- 3/8" shackle w/ 2" clearance (custom sizes available)
