

THE NEW STANDARD FOR SAFETY LOCK-OUT SYSTEMS!

THE VAN LOCK Co., INC. LOCK-OUT SYSTEM is a step beyond all others. We not only color code, but also color coordinate both locks and keys for easy and immediate identification.

The unique lock and key design help you to comply with OSHA regulations. The virtually handmade keys cannot be duplicated as there are no key blanks or key machines. Definitely *the* new standard for safety lock-outs.

SOLID ALUMINUM BODIES

- Will not spark
- Powder-coated for durability—6 colors
- Corrosion resistant
- Lightweight

UNIQUE KEY

- Cannot be duplicated
- Readily identifiable
- Can be color-coordinated with lock body

ALSO AVAILABLE IN VANAMATIC SERIES

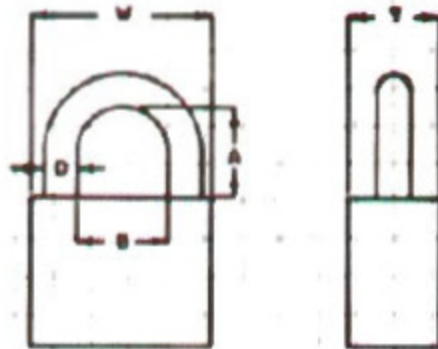

- Each lock has 8 combinations built-in
- When keys are lost or stolen or when an employee leaves, combinations can be changed in seconds via change keys!
