

Taking Security 360°

Internal Controls
All codes & combinations issued by us are secure & registered

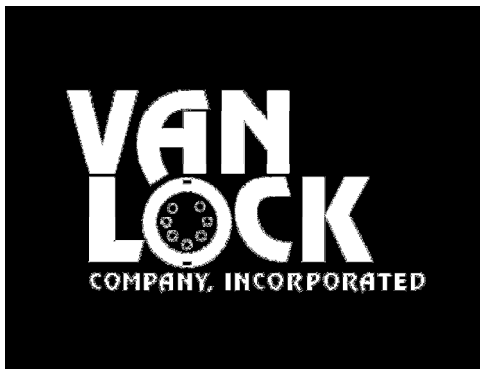

Physical Security
All products are made to be physically secure and stand up to the demands of the application. Only the finest materials and proven processes are used.

Customer Service
You will always receive personalized service. From a live person on the phone to an on site meeting from our sales staff, we are just one call or click away.

Experience & Knowledge
We have a customer base of 6000+ companies and have been in the industry for 50 years.

The Van Lock Company has nearly 50 years of experience creating high security products for the vending industry. Our products are used all around the world by some of the largest vending companies in the world.

We are happy to take the time to speak with you and create a security strategy for your company. Please take a few moments and pick up the phone.
